

General

- This product may be used under supervision, or if instruction regarding the safe use of the product has been provided and the resulting dangers have been understood, by children aged 8 and above, as well as by persons with physical, sensory or mental disabilities or a lack of experience and knowledge. Children must not be allowed to play with the product. Cleaning and user maintenance must not be performed by children without supervision.
- The use of this product by young people under the age of 16 is not recommended. Never allow children or people unfamiliar with the instructions to use the machine.
- Stop using the machine while people, especially children, or pets are nearby.
- Only use the product in the manner and for the functions described in these instructions.
- Never operate the product when you are tired, ill or under the influence of alcohol, drugs or medicine.
- The operator or user is responsible for accidents or hazards occurring to other people or their property.
- Read the user instructions carefully to make sure you understand all the controls and what they do.
- We recommend the use of a Residual Current Circuit Device (R.C.D.) with a tripping current of not more than 30mA. Even with a R.C.D. installed 100% safety cannot be guaranteed and safe working practice must be followed at all times. Check your R.C.D. every time you use it.
- Before use, examine cable for damage or ageing. If the cable is found to be defective, take the product to an Authorized Service Centre and have the cable replaced.
- Do not use the product if the electric cables are damaged or worn.
- Do not use the product if the electric cables are damaged or worn.
- Immediately disconnect from the mains electric supply if the cable is cut, or the insulation is damaged. Do not touch the electric cable until the electrical supply has been disconnected. Do not repair a cut or damaged cable. Replace it with a new one.
- Your extension cable must be uncoiled, coiled cables can overheat and reduce the efficiency of your product.
- Keep cable away from product, always work away from the power point mowing up and down, never in circles.
- Do not pull cable around sharp objects.
- Always switch off at the mains before disconnecting any plug, cable connector or extension cable.
- Switch off, remove plug from mains and examine electric supply cable for damage or ageing before winding cable for storage. Do not repair a damaged cable, replace it with a new one. Use only Flymo replacement cable.
- Always wind cable carefully, avoiding kinking.
- Never carry the product by the cable.
- Never pull on the cable to disconnect any of the plugs.
- Use only on AC mains supply voltage shown on the product rating label.
- Flymo Products are double insulated to EN60335-1. Under no circumstance should an earth be connected to any part of the product.

Preparation

- While using your product always wear substantial footwear and long trousers. Do not operate the equipment when barefoot or wearing open sandals.
- Make sure the lawn is clear of sticks, stones, bones, wire and debris; they could be thrown by the blade.
- Before using the machine and after any impact, check for signs of wear or damage and repair as necessary.
- Replace worn or damaged blades together with their fixings in sets to preserve balance.

Use

- Use the product only in daylight or good artificial light.
- Avoid operating your product in wet grass, where feasible.
- On slopes, be extra careful of your footing and wear non-slip footwear.
- Mow across the face of slopes, never up and down.
- Exercise extreme caution when changing direction on slopes. Walk never run.
- Do not mow excessively steep slopes.
- Do not walk backwards when mowing, you could trip.
- Never cut grass by pulling the product towards you.
- Switch off before pushing the product over surfaces other than grass.
- Never operate the product with damaged guards
- Without guards in place.
- Switch on the motor according to instructions and with feet well away from the blade(s).
- Do not tilt product when the motor is running, except when starting and stopping. In this case, do not tilt more than absolutely necessary and lift only the part which is away from the operator. Always ensure that both hands are in the operating position before returning the appliance to the ground.
- Do not put hands or feet near or under rotating parts.
- Never pick up or carry a product when it is operating or still connected to the mains supply.
- Remove the plug from the mains before leaving the product unattended for any period.
- Before clearing a blockage:
- Before checking, cleaning or working on the appliance:
- If you hit an object. Do not use your product until you are sure that the entire product is in a safe operating condition.
- If the product starts to vibrate abnormally. Check immediately. Excessive vibration can cause injury.

Maintenance and storage

- Caution - Do not touch rotating blade.
- Keep all nuts, bolts and screws tight to be sure the lawnmower is in safe working condition.
- Check the grassbox frequently for wear or deterioration.
- Replace worn or damaged parts for safety.
- Only use the replacement blade, and blade bolt specified for this product.
- Be careful during adjustment of the product to prevent entrapment of the fingers between moving blades and fixed parts of the machine.
- Store in a cool dry place and out of reach of children. Do not store outdoors.
- Allow the product to cool for at least 30 minutes before storing.

2

Environmental Information

Awareness of the environment must be considered when disposing of 'end-of-life' product.

If necessary, contact your local authority for disposal information.

The symbol  on the product or on its packaging indicates that this product may not be treated as household waste. Instead it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment.

By ensuring this product is disposed of correctly, you will help prevent potential negative consequences for the environment and human health, which could otherwise be caused by inappropriate waste handling of this product. For more detailed information about recycling of this product, please contact your local council office, your household waste disposal service or the shop where you purchased the product.

EC Declaration of Conformity

Husqvarna AB, S-561 82, Huskvarna, Sweden

Declare under our sole responsibility that the product(s):
Category..... **Lawnmower**
Model(s)..... **CN32V**
Identification of Series..... **See Product Rating Label**
Year of Construction..... **See Product Rating Label**

Complies with the essential requirements & provisions of the following EC Directives:
2006/42/EC, 2004/108/EC, 2000/14/EC, 2011/65/EU
based on the following EU harmonized standards applied:
EN60335-1, EN60335-2-77, EN62233, EN55014-1, EN61000-3-2, EN61000-3-3

The maximum A weighted sound pressure level L_{pA} at the operator's position, measured according to EN60335-2-77, is given in the table.

The maximum hand / arm vibration weighted value a_{hv} measured according to EN ISO 20643 on a sample of the above product(s) is given in the table.

2000/14/EC: The Measured Sound Power L_{WA} & Guaranteed Sound Power L_{WA} values are according to the tabulated figures.

Conformity Assessment Procedure..... Annex VI
Notified Body..... Intertek, Davy Avenue, Knowlhill, Milton Keynes, Bucks., MK5 8NL, England

Husqvarna, 17/01/2013
P. Lameli,
Chief Technical Officer
Keeper of technical documentation

Type	CN32V
Width of Cut (cm)	32
Speed of Rotation of Cutting Device (RPM)	3,600
Power (kW)	1.2
Measured Sound Power L_{WA} (dB(A))	95
Guaranteed Sound Power L_{WA} (dB(A))	96
Sound pressure L_{pA} (dB(A))	80.2
Uncertainty K_{pA} (dB(A))	2.5
Hand / arm vibration a_{hv} (m/s ²)	2.08
Uncertainty K_{ah} (m/s ²)	1.5
Weight (Kg)	8.68

Our policy of continuous improvement means that the specification of products may be altered from time to time without prior notice.

Explanation of Symbols on your product

Read the user instructions carefully to make sure you understand all the controls and what they do.

Always keep the product on the ground when operating. Tilling or lifting the product may cause stones to be thrown out.

Keep bystanders away. Do not operate whilst people especially children or pets are in the area.

Warning

Beware of sharp blades - remove plug from mains before maintenance or if cable is damaged.

Blades continue to rotate after the machine is switched off.

Keep the cable supply away from the blade.

Safety

IMPORTANT! Please check the contents of the carton are correct **BEFORE** assembling your new Flymo product. The Loose Parts Pack is packaged underneath the deck of the product.

CABLES - IMPORTANT

If you want to use an extension cable when operating your product, only the following cable dimensions should be used.

- 1.0 mm² : max length 40 m
- 1.5 mm² : max length 60 m
- 2.5 mm² : max length 100 m

Minimum rating :

1.00mm² size cable, 10 amps 250 volts AC.

YOUR PRODUCT IS SUPPLIED WITH CABLE WIRED DIRECTLY INTO THE PRODUCT.

- If the supply cord is damaged, it must be replaced by your local Husqvarna UK Ltd. Approved Service Centre or similarly qualified persons in order to avoid a hazard.
- Flymo Extension Cables are available from your local Husqvarna UK Ltd. Approved Service Centre.
- Do not wire an extension cable directly to your product yourself. Please contact your local Husqvarna UK Ltd. Approved Service Centre for further information on the connectors and kits available.
- Only use extension cables specifically designed for outdoor use and which conform to one of the following specifications: Ordinary rubber (60245 IEC 53), Ordinary PVC (60227 IEC 53) or Ordinary PCP (60245 IEC 57)

CONNECTORS - IMPORTANT

- Flymo connectors are suitable for use with 2 core cable only. Under no circumstances should these connectors be used for earthed products.
- All Flymo connectors and cables are of splashproof construction. They are not waterproof and must not be left outside permanently nor should they be submerged or immersed in water. Do not let cable lay or trail through pools of water or splashed with water from hose pipes.

MAINS PLUG REPLACEMENT - IMPORTANT

- If the plug supplied is cut off it should be destroyed. There is an electric shock hazard if a cut off plug is inserted into a 13 amp socket.

- No earth required.** Flymo products are double insulated to EN60335 and under no circumstances should an earth be connected to any part of the product.
- Ensure the mains voltage suits your product**
- IMPORTANT!** The wires in the mains lead are coloured in accordance with the following code:
BLUE - NEUTRAL BROWN - LIVE
The wire which is coloured BLUE must be connected to the Terminal which is marked with the letter 'N' or coloured BLACK.
The wire which is coloured BROWN must be connected to the Terminal which is marked with the letter 'L' or coloured RED.
It is important that the outer sheath is clamped correctly into the 3-pin plug.
If in doubt consult your local Service Repairer or qualified electrician before the machine is used.
A 13 Amp fuse must be fitted to the Mains Plug.
- The normal plug fuse and household fuse only protect the electrical equipment and are not a safeguard against electrocution.

If your product is hard wired i.e. non-detachable mains electric cable, a conversion kit and extension cable is available from all Approved Service Centres which can be found in your local Yellow Pages.

Assembly Instructions

- The Loose Parts Pack is packaged underneath the deck.

Assembly of Lower Handles to Deck

- Place the bolt (A2) through the hole in the lower handle (A1) until the lower handle fits into the recess (A3)
- Place the washer (B1) and the wing knob (B2) on to the bolt and tighten the wing knob. It may take 20 - 25 turns to fully tighten on initial assembly.
- Repeat on the other side.

Assembly of Upper Handles to Lower Handles.

- Ensure the upper handle is located correctly with the lock-off button on the switchbox uppermost.
- Ensure the upper handle (C1) and the lower handle (C2) are aligned correctly.
- Fit the bolts (C3), washers (C4) and wing knobs (C5). Tighten the wing knob.
- Fit the cable to the handles with the clips provided. Make sure the cable is not trapped between the upper and lower handles.

Grassbox Assembly

- Slide the grassbox tongue into the slots in the grassbox lower until it clicks securely into position (D)
- Push the grassbox handle into the slots in the grassbox upper until it clicks securely into position. (E)
- Starting at the rear of the grassbox, locate the grassbox upper into the grassbox lower by aligning the clips (F1). Ensure all clips are correctly located. (F2) before clicking into position.
- Clip the two halves together, ensuring all clips are securely connected.

**Grassbox****Fitting Fully Assembled Grassbox to Lawnmower.**

- Lift safety flap (G1)
- Make sure the discharge chute is clean and free from debris (G2)
- Locate fully assembled grassbox onto 2 location points (G3) at the rear of the deck as illustrated in pic. H
- Locate safety flap onto the top of the grassbox. Ensure the grassbox is securely located.

IMPORTANT! AFTER FITTING ENSURE NO GAP REMAINS BETWEEN THE SAFETY FLAP AND THE GRASSBOX.

- Removal is the reverse procedure.
- For larger areas of grass where grass collection is not required you can use your lawnmower without the grassbox. Ensure the Safety Flap is fully closed. The design of the safety flap permits the cut grass to be discharged downward behind the machine.

Grassbox Full Window

- As the grassbox fills up, grass will be visible through the window (J).
- When the window/grassbox is full it is time to empty the grassbox.

Cutting Height Adjustment**Cutting Height Adjustment (K & L)**

- Height of cut is adjusted by raising or lowering the Front and Rear Wheels.
- There are five heights of cut on this product.
- NOTE**
A medium height of cut is recommended for most lawns.
The quality of your lawn will suffer and collection will be poor if you cut too low.

**HEIGHT OF CUT**

- Low
- Low to Medium
- Medium
- Medium to High
- High

WHEELS POSITION

- Front position 2cm
- Rear position 2cm
- Front position 4cm
- Rear position 4cm
- Front position 6cm
- Rear position 6cm

Starting and Stopping**To Start your Lawnmower**

- Connect plug to mains and switch on.

The switchbox is provided with a lock-off button (M1) to prevent accidental starting.

- Press and hold the lock-off button (M) on the switchbox, then squeeze one of the Start/Stop levers towards the upper handle (N).
- Continue to squeeze the start/stop lever towards the upper handle and release the lock-off button (O).
- Lower the lawnmower to its proper operating position and commence mowing.

NOTE - There are two start/stop levers fitted. Either one can be used for starting the lawnmower.**IMPORTANT - Do not use the start/stop levers intermittently To Stop your Lawnmower**

- Release the pressure on the Start/Stop lever.

How to Mow

- Start mowing the edge of the lawn nearest to the power point so the cable is laid out on the lawn you have already cut.
- Mow twice a week during the growing season, your lawn will suffer if more than a third of its length is cut at one time and this may also result in poor collection.

Do Not Overload Your Mower

Mowing long thick grass may cause the motor speed to drop, you will hear a change in the motor sound. If the motor speed drops you may overload your lawnmower which may cause damage. When mowing in long thick grass a first cut with the cutting height set higher will help reduce the load. See Cutting Height Adjustment.

Removing and Fitting the Blade

Switch off, wait until the blade has stopped rotating and disconnect from the mains electricity supply BEFORE attempting to remove or refit the blade. Always handle the blade with care - sharp edges could cause injury. USE GLOVES.

Removing the Blade

- To remove the blade bolt, hold the blade firmly with a gloved hand and with a spanner, loosen the blade bolt by turning it anti-clockwise (P).
- Remove the blade bolt, washer and blade. (P)
- Inspect for damage and clean as necessary.
- In the event of a blade becoming difficult to remove, insert a screwdriver (Q1) into the hole (Q2) to lock the drive, then use a spanner (13mm A/F) to loosen the blade bolt by turning the spanner anti-clockwise. Ensure the screwdriver is removed before attempting to turn on the machine.

Renew your metal blade after 50 hours mowing or 2 years whichever is the sooner - regardless of condition. If the blade is cracked or damaged replace it with a new one.

Fitting the Blade

- Fit the blade to the shaft with the sharp edges of the blade pointing away from the shaft and you are able to read the text on the blade 'This side to grass'
- Re-assemble blade bolt through the washer and the blade.
- Hold the blade firmly with a gloved hand and tighten the blade bolt firmly with a spanner. Do not over tighten.

**Caring for your Lawnmower****Cleaning**

- USE GLOVES
 - IMPORTANT:-** It is very important that you keep your lawnmower clean. Grass clippings left in any of the air intakes or under the deck could become a potential fire hazard.
- Remove grass from under the deck with brush. (R1)
 - Using a soft brush - remove grass clippings from all air intakes (R2), the discharge chute (R3) and the grass box (R4).
 - Using a soft brush, remove grass clippings from the vision window (R5).
 - Wipe over the surface of your lawnmower with a dry cloth (R6).

Storing your Cable

- Your electric cable can be wrapped around the cable wrap wing knobs to enable tidy and safe storage (S1).

Storing your Lawnmower:

- Loosen the wing knobs to enable the handles to be folded over the product (S2).
- Store in a dry place where your lawnmower is protected from damage

At the End of the Mowing Season

- Replace blade, bolts, nuts or screws, if necessary.
- Clean your lawnmower thoroughly.
- Make sure that the electric cable is stored correctly to prevent damage.

**Fault Finding Hints****Fails to Operate**

- Is the correct Starting procedure being followed? See 'To Start your Lawnmower'
- Is the Power Turned On?
- Check the fuse in the plug, if blown replace.
- Fuse continues to blow?

Immediately disconnect from the mains electricity supply and consult your local approved Service Centre.

Poor Grass Collection

- Disconnect from the mains electricity supply.
- Clean the outside of the air intakes, the discharge chute and the underside of the deck.
- Raise to a higher height of cut. See Cutting Height Adjustment.
- If poor collection persists. **Immediately disconnect from the mains electricity supply and consult your local approved Service Centre.**

Excessive Vibration

- Disconnect from the mains electricity supply.
 - Check that the blade is fitted correctly?
 - If the blade is damaged or worn, replace it with a new one.
 - If vibration persists? **Immediately disconnect from the mains electricity supply and consult your local approved Service Centre.**
- Lawnmower becomes heavy to push**
- Disconnect from the mains electricity supply.
 - In long grass or uneven ground, the height of cut should be raised to a higher position. See Cutting Height Adjustment.
 - Check that the wheels and rollers can rotate freely.
 - If problem persists? **Immediately disconnect from the mains electricity supply and consult your local approved Service Centre.**

Service Recommendations

- We strongly recommend that your product is serviced at least every twelve months, more often in a professional application.
- Always use genuine Spare Parts.
- Prepacked spares are available from most Husqvarna UK Ltd. stockists.
- Your product is uniquely identified by a silver and black product rating label
- If you have a problem with your machine contact your local Approved Service Centre ensuring you have full details of your product as described on the product rating label.

Should it be necessary for work to be carried out by your Service Centre, it is important to take your complete machine including cable and any extension cables used.

A network of specialist dealers can be found in your local Yellow Pages.

To obtain service on your product simply telephone or visit your local Service Centre.

Should you require service under the terms of our guarantee the Service Centre will require proof of purchase. **All of the centres listed stock genuine Spare Parts.**

NOTE: Our Service Repairers act on their own behalf and are not empowered to commit or legally bind Husqvarna UK Ltd. in any manner whatsoever.

Guarantee & Guarantee Policy

If any part is found to be defective due to faulty manufacture within the guarantee period, Husqvarna UK Ltd., through its Authorised Service Repairers will effect the repair or replacement to the customer free of charge providing:

- The fault is reported directly to the Authorised Repairer.
- Proof of purchase is provided.
- The fault is not caused by misuse, neglect or faulty adjustment by the user.
- The failure has not occurred through fair wear and tear.
- The machine has not been serviced or repaired, taken apart or tampered with by any person not authorised by Husqvarna UK Ltd.
- The machine has not been used for hire.
- The machine is owned by the original purchaser.
- The machine has not been used commercially.

Failures due to the following are not covered, therefore it is important that you read the instructions contained in this Operator's Manual and understand how to operate and maintain your machine:

Failures not covered by guarantee

- Replacing worn or damaged blades.
- Failures as a result of not reporting an initial fault.
- Failures as a result of sudden impact.
- Failures as a result of not using the product in accordance with the instructions and recommendations contained in this Operator's Manual.
- Machines used for hire are not covered by this guarantee.
- The following items listed are considered as wearing parts and their life is dependent on regular maintenance and are, therefore not normally subject to a valid warranty claim: Blades, Electric Mains cable
- Caution!**
Husqvarna UK Ltd. does not accept liability under the warranty for defects caused in whole or part, directly or indirectly by the fitting of replacement parts or additional parts that are not either manufactured or approved by Husqvarna UK Ltd., or by the machine having been modified in any way.
